THE ODD FELLOWS' CELEBRATION will take place THE UDD FELLOWS CELEBRATION WILL TAKE PLACE to-day. At 10 o'clock, A. M., the procession will form near the Washington Hall, and after proceeding through the route designated in the programme, will repair to the MKLOPEON, The Rev. David TRUMAN, of Ohio, will deliver an Oration. The delegations expected from abroad, added to the large numbers belonging to the Order in this city, promise an interesting demonstration.
The ceremonies at the Melodeon will take place about half past 12 o'clock. The public are respectfully invited to attend.

The Fire Department.—The demands of our Fire companies for an increase and improvement of their apparatus, deserve, and we know they will receives a respectful consideration by the City Council. We do not think there is a member of that body who does not feel an interest in the protection to property which well regulated and efficient Fire Companies afford, and who does not appreciate the noble services of our Firemen heretofore, many of whom have not a cent's worth of fore, many of whom have not a cent's worth of property in the city, but are only impelled to haz property in the city, but are only impelled to haz interest and the common defence on for the protection and facility of fore, many of whom have not a cent's worth of the common defence on for the protection and facility

fore, many of whom have not a cent's worth of property in the city, but are only impelled to haz and their lives, by the most generous impulses of which our nature is capable. Nor do we think there is a member of Council who does not desire to extend to the Fire companies all necessary aid and protection. This fact, we think, was evinced by the last action of Council, and by the remarks of the members when the subject was brought before then.

It should not, however, be forgotten that the finances of the city are exhausted. There is not only no money in the treasury, but a large amount of appropriations have been ordered over and above any revenue which can be derived for some time to come. In this state of affairs, the Council must not be lavish in its appropriations. But we feel assured that it will meet all reasonable demands of the Firemen, and if the provisions made at the last meeting are not sufficient, they wil be increased or modified in such a manner as a conference between committees of the Council and Fire companies shall determine. This course cannot fail to the feet an amicable and satisfactory adjustment.

1. The Government of the United States is of a limited character, and it is confined to the exercise of powers expressly granted by the Constitution, and such as may be necessary amproper for carrying the granted powers into full execution, and that all powers not thus granted or uncessarily implied are expressly reserved to the States respectively and to the people.

SAFETY GAS LAMPS,

AND

Patent Phosgene Gas.,

FOR BURNING IN THE SAME.

This Lamp, for producing a portable Light, is confidently recommended as superior to any other none in use.

THE LIGHT is produced by the burning of an aeriform forations in Platina.

The Gas is generated as it is used, by the heat of its own combustron acting on the burner, connected with the Liquid in the Lamp. Thus it is a perfect and portable apparatus for creating and burning aeriform Gas.

Its construction is such, that all possibility of accident from its use is entirely removed; and the great simplicity of its arrangement renders it less liable to get out of order than any other kind of Lamp. It requires no cleaning and trimining, as do the Oil and Camphene Lamps, and burns equally well, either with or without a gass globe or shade, and perfectly free from snoke or odor.

The opinions of the scientific may be learned from the fact that at the Annual Fair of the American Institute, in 1845, a ploma to the Manufacturer; and at the same it was pronounced the REST LIGHT ever exhibited to the institute.
